# ABOUT US

**PWS PALLETS** is a renowned manufacturer and supplier of a wide range of high-quality pallets. Our commitment to excellence is evident in the superior solutions we provide to meet the unique needs of the industry.

Our precision-engineered wooden pallets are calibrated to exact thickness specifications, making them ideal for use in industries such as fly ash brick / block / paver block manufacturing and chemical storage

Our pallets are built to withstand heavy loads and deliver long-lasting performance. Through meticulous temperature and pressure control, along with various treatments, PWS pallets are recognised for their exceptional functionality in the market.

Our progressive approach and dedication to perfection enable us to produce standard-setting products. Our world-class manufacturing processes ensure that our pallets are not only durable and reliable but also tailored to meet specific requirements.

## OUR FOUNDER

# MR. SANCHIT AGARWAL

Under the visionary leadership of Mr. Sanchit Agarwal, our company has established a strong presence in the competitive industry.

His commitment to delivering top-quality products and implementing cutting-edge technological advancements has distinguished us from our competitors. Mr. Agarwal's ethical business practices, keen business acumen, and exceptional managerial abilities have helped us attract a large customer base nationwide.

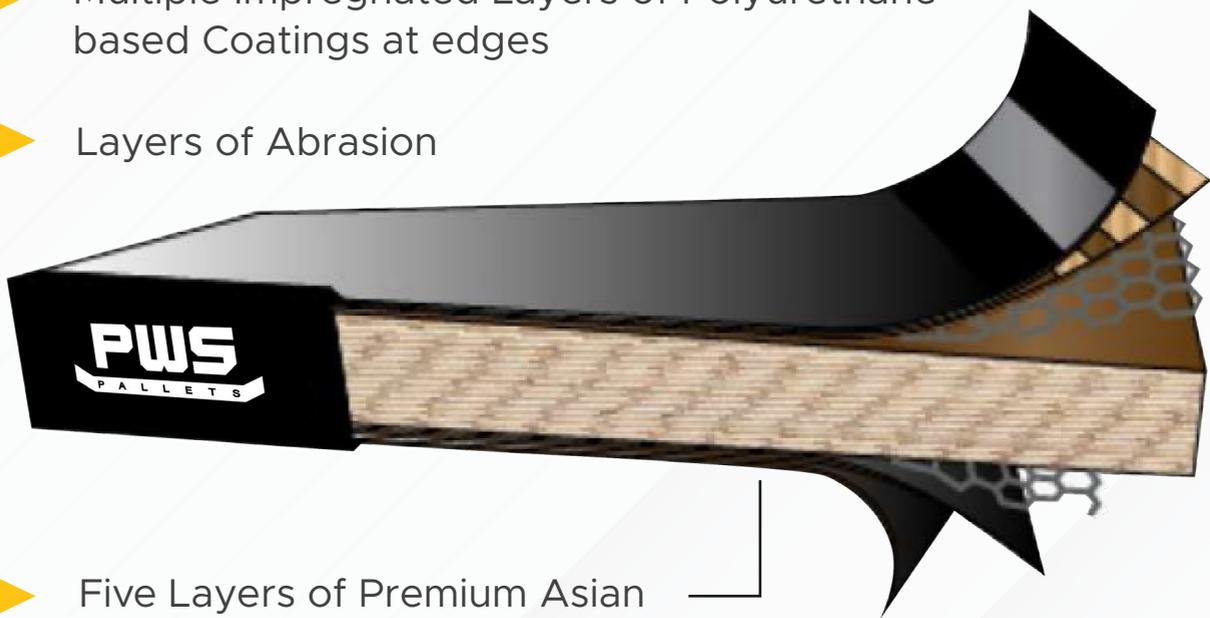

# COMPOSITE WOODEN

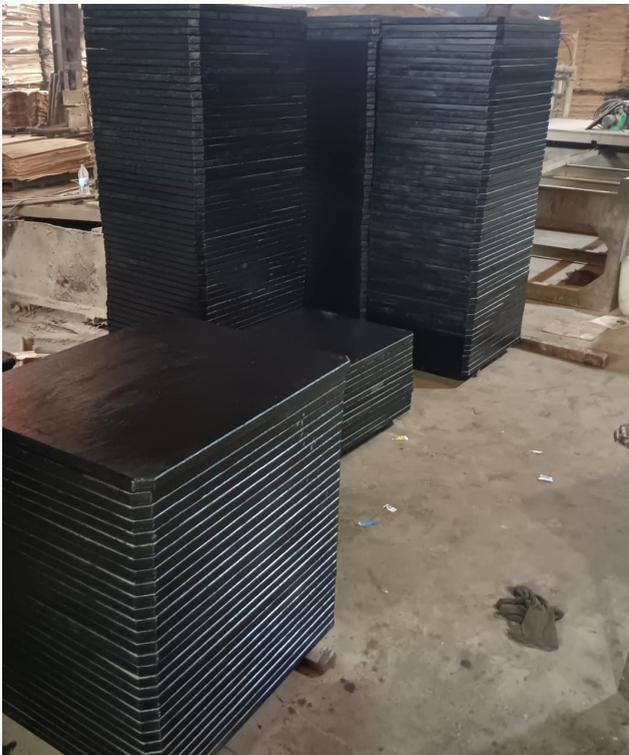

## PALLETS

PWS wooden pallets are designed and developed in our manufacturing plant to withhold burden and give long-lasting performance. Developed under controlled temperature and pressure, and after undergoing several treatments, the pallet stands tall in its market for effective functionality.

- ▶ Available in all sizes with thickness from 10mm to 70mm
- ▶ Industrial Synthetic Film
- ▶ Multiple Impregnated Layers of Polyurethane based Coatings at edges
- ▶ Layers of Abrasion

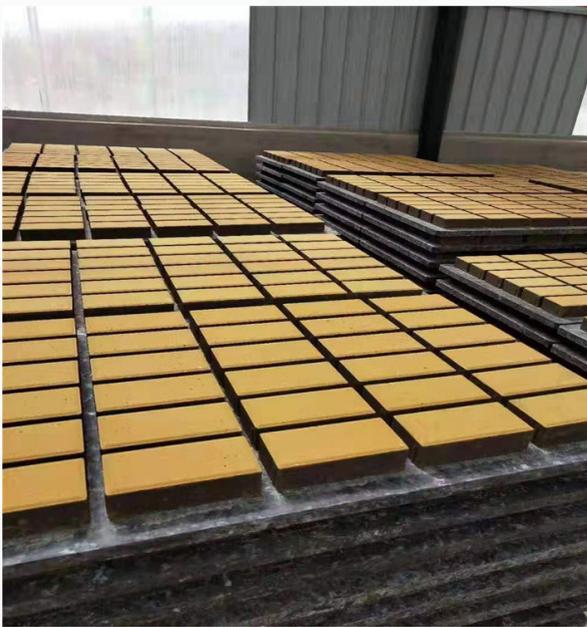

- ▶ Five Layers of Premium Asian Hardwood Veneers
- ▶ Prolonged Hydrolic Compression at Very High Temperature
- ▶ Mutiple Layers of Select Asian Harward Veneer

# GMT BRICK PALLET

PWS GMT brick pallets are made from recycled plastic and can be availed at various sizes starting from 350 x 570 mm to 760 x 960 mm. The option of customization is also provided where clients can order pallets that meet their individual needs and requirements.

# PVC BRICK PALLET

PWS PVC Brick Pallet is fire-resistant and can be effectively utilized for brick production and for manufacturing Ash Bricks. The standard thickness of each brick is estimated to be around 16 to 30 mm which makes it an ideal construction building block.

# WHY SHOULD YOU CHOOSE PWS PALLETS?

One Solid Piece  
No Gaps or Joints

No moisture Problem  
if Chipped

Minimum  
Deflection

Less Wear to Machines  
And Moulds

Hardwood Fibre  
Fortification

Sturdy Pallets

Strong and  
Homogenous

Vibrational Stress  
Compatilby

Double Film  
Coating

Metal  
Reinforcement

High Density  
Hardwood

Warranty Against  
Delaminations

Weather Proof
